EXPERIENCE

FREELANCER

Working as a Full stack Web developer. Making Website with MERN stack

2022 - Present

PROJECTS

NATOURS   LIVE AT ⬈

Natours is a web application where users can register, explore tours, read reviews, and book tours independently.
Technologies utilized include Node.js, Express, Mongoose, MongoDB, Stripe, Pug, Bcrypt etc.

THE WILD OASIS   LIVE AT ⬈

The wild oasis is a hotel management react app, simplifying tasks like sales stats, cabin & user management, bookings, and lots of customization options. Incorporates secure authentication, database storage, and a cool dark mode feature. And so much more.

WORLD-WISE   LIVE AT ⬈

The app features an interactive world map displaying useradded cities, a city list with detailed information, and enables users to add, edit, and remove cities
